

PROFESSIONAL TYRES

# ALBOURGH ALLWORKS

The Albourgh Allworks MPT tyre has been developed for maximum versatility.

One tyre that performs effortlessly on asphalt, construction sites and various other surfaces. Thanks to its robust carcass, reinforced shoulders and self-cleaning tread design, the Allworks delivers excellent traction, long-lasting wear resistance and minimal downtime.

With its smart price-performance ratio, the Allworks is the reliable choice for those who want to combine efficiency, power and durability.

# ALLWORKS

## MAXIMUM VERSATILITY

The Albourn Allworks has been developed for daily use in working environments where the surface continuously changes.

Think of driving on paved roads combined with on-site work such as yards, construction sites and infrastructure projects. The tyre provides a stable base during loading, lifting and manoeuvring, and contributes to comfort during transport. As a result, the machine remains predictable, even during intensive use with frequent turning and stopping movements.

With the Allworks, you choose a reliable MPT solution suitable for broad deployment within a single working day – from transport to on-site operations.

- › REINFORCED SHOULDERS AND SIDEWALLS FOR OPTIMAL PROTECTION
- › EXCELLENT TRACTION, SPECIAL TREAD DESIGN WITH SELF-CLEANING EFFECT
- › WEAR-RESISTANT COMPOUND FOR MAXIMUM OPERATING HOURS AND LOW COST PER HOUR
